

Be a force for good

DATA ANALYSIS INTERN – AGRICULTURAL SCIENCES AND SUSTAINABILITY

Position Snapshot

Location: Lausanne, Switzerland (on-site)

Act. Rate: Full-Time

Type of contract: Internship, 6 months

Start date: 15/04/2025

Position Summary

As a Data analysis intern in our Institute of Agricultural Sciences, you will have the opportunity to actively contribute to the development of scientific projects related to sustainability and agricultural sciences. This internship will provide valuable hands-on experience and exposure to the industry in the leading food company worldwide.

A Day in the Life of a Data Analysis intern

- Data processing, transformation, and analysis for projects on sustainability of dairy and livestock farming.
- Conduct statistical analysis and modeling and develop visualization tools and dashboards.
- Drive the continuous improvement in data analysis and modeling pipelines needed to support projects that aid Nestlé achieve its climate objectives and net zero roadmap.
- Collaborate with other team members to identify and solve data analytics-related issues.

What will make you successful

- Currently enrolled or recently graduated from a MSc degree program in Biostatistics or Agricultural Sciences with a strong focus on data & statistics.
- Strong background in statistical analysis and modeling.
- Proficient in R (mandatory) and Python programming (a plus) and data visualization tools such as Tableau, Power BI, Shiny.
- Proficient in Microsoft Office (Word, Excel, PowerPoint, OneNote etc.).
- Strong interest in working in the agricultural sciences and sustainability domain.
- Excellent organizational and time management skills.
- Ability to work collaboratively in a multicultural and multidisciplinary environment.
- Excellent communication skills, positive attitude and willingness to learn.
- Oral and written fluency in English, French is a plus.
